

What are the living allowances (daily and nightly) and when are they paid?

The living allowances do not require any justification or proof.

They are automatically paid for the effective month for the the days you effectively worked AND as soon as the [invoice has been paid](#) by the customer.

IMPORTANT NOTES:

- The daily allowances cover a lump-sum costs for your personal meals for lunch and and dinner >< you cannot use the restaurant bills unless you can justify a **business meal** with at least **2 people**. Otherwise, it will be a double payment;
- The nightly allowances cover the costs such as the price of the hotel room, breakfast and taxes >< you cannot combine the nightly allowances with the cost of a night at the hotel.
